Experience The SOMERSET Difference: Truth. Honesty. Dignity. Respect.

At Somerset Homes we believe when you buy a home you are also "buying" the builder. That means you should pay as much attention to choosing the right builder, as you do the right home. Structural integrity, energy efficiency, and a flawless interior are paramount in our building process. When you build with us, you are choosing a well-established, reputable builder who strives to build you a beautiful home without sacrificing quality of craftsmanship. Exceeding customer satisfaction is our top priority and we are proud to have earned the trust of many loyal clients who have referred their families, friends and co-workers to us.

As a professional new home builder, we stand behind our homes and offer a no hassle, timely after-sale service program. You are also safe-guarded by our 10 year Progressive New Home Warranty Program that provides protection for your investment for years to come.
